- Exactly what you would expect from the world's leading manufacturer of fabric protection products.
- Hardwearing stain barrier to protect against spillages.

QUESTIONS AND ANSWERS

Q What should I use to clean my car?
A *You can use normal car shampoo but we recommend you use our quality Ixtar Car shampoo which is available from your nearest Renault dealer. Well maintained Car washes are not a problem either just remember to take the cheapest programme! No need for the expensive cycles.*

Q How often should I clean / Wax my Car?
A *There is no need to wax your vehicle for 5 years once Ixtar G-3 Glasscoat has been applied. Just take reasonable care of your car, wash it when it's dirty and use the Bird dropping Remover to clean off those marks.*

Q Do I need to have it reapplied every year?
A *No, it is a truly 'fit and forget' essential option No more re-application and inspection hassles.*

Q Can i use a Jet wash on my Car?
A *Yes, using a Jet wash will not affect the performance of the Ixtar G-3 Glasscoat coating*

Q Is it ok to go through a Car Wash - will it take off the Protection?
A *A well maintained car wash with the cheapest cycle is recommended and this will not in any way affect the advanced Ixtar G-3 Glasscoat coating.*

Q Is it safe to use the hand wash centres?
A *Perfectly safe. Ixtar G-3 Glasscoat is extremely resilient to the effects of solvents.*

Q Where can I get the Shampoo to use on my car?
A *We recommend using the Ixtar Car shampoo available from your local Renault dealer but you should also be fine using any other leading Car shampoo. We don't recommend you use washing up liquid some of them contain lots of salt to make them 'bubble' – not good for corrosion.*

Q How quickly should I remove Bird droppings?
A *Preferably before deposits become baked on. If you find any baked on deposits, repeatedly soak the dropping using Ixtar Bird Dropping Remover. Deposits will simply ease off. Don't scrape off dry droppings – the gritty bits will damage the surface*

Q Can Ixtar G-3 Glasscoat be applied to a used vehicle?
A *Yes, the Ixtar G-3 Glasscoat can be applied to a used vehicle.*

Q Do I have to pay for Ixtar G-3 Glasscoat again if my car is involved in an accident?
A *In the event of an accident the product can be re instated on Paintwork, Alloy Wheels, glass sunroofs, side windows and door mirrors, by your Renault Approved Accident Repair Centre, as part of your insurance claim*

Once in a while a product arrives that redefines its marketplace...
 ...a new era in paint protection

NO WAXING FOR 5 YEARS, JUST WASH AND GO!

The modern paint technology development process that has been incorporated into the design of your car, has not been matched in terms of the development of the current products available in the paint protection market place.

Ixtar G-3 Glasscoat has changed all of this with a new product that redefines paint protection. The Ixtar G-3 Glasscoat liquid

* Paintwork, Sunroof and side windows only.

glasscoat extends the life of your cars paintwork by offering exceptional resistance to potentially damaging factors such as acid rain, road salts, pollution and sunlight. It is guaranteed to last for 5 years, compared to other waxes which deteriorate over a matter of weeks.

Ixtar G-3 Liquid Glasscoat is the only paint protection on the market that can be

applied to the whole exterior of your vehicle* and also performs exceptionally well on alloy wheels and sunroofs.

The Ixtar G-3 Glasscoat range is only available from Renault because they insist on their vehicles looking showroom new for as long as possible, complementing the most advanced paint technologies used on your new vehicle.

LIVE A LITTLE... ...GIVE POLISHING THE ELBOW

IXTAR G-3 LIQUID GLASSCOAT BENEFITS

- Forms an invisible, but substantial barrier against bird lime, solvents, sunlight, acid rain and tree sap to help prevent damage
- Easily removed dirt and grime leaving a 'brand new finish look' that allows you more leisure time for friends and family.
- The guarantee period for Ixtar G-3 Liquid Glasscoat is 5 years. This is unique in the marketplace because it does not require additional conserver treatments, unlike our competitors
- Produced and packaged to minimise environmental damage, making Ixtar G-3 Glasscoat the most environmentally friendly product in this marketplace
- Exceptionally hard wearing against the harshest environment for peace of mind
- Transferable 5 year guarantee*

*Subject to a nominal one off fee

HOW DOES G-3 WORK?

The advanced nature of Ixtar G-3 Glasscoat means that the molecular structure adheres to the paintwork providing unrivalled protective thickness and durability. Over a period of time the glasscoat will toughen with age.

The other good news is that the product has repeatedly demonstrated a capacity to keep vehicles looking cleaner for longer.

5 YEARS – 5 STAR PROTECTION

BEST EVER PAINT PROTECTION FOR YOUR RENAULT

- Protective coating
- Bonds to the paintwork
- No other paint protection system is designed to work in this way
- Wax and polymer sealants deteriorate quickly and require the use of conservers or offer limited product guarantees. re-treatment

- The hydro-repellant nature of Glasscoat also means that your vehicle stays looking cleaner for longer

- Lasts up to 10 times longer than old technology sealants

With all my experience of paint technology, it is the first time I have been totally amazed at the performance of a new product. We do not recommend any other form of protection or coating.
